

STOP THAT THIEF

Police and National Farmers' Union Initiative

STOP THAT THIEF

Working in partnership with the National Farmers' union (NFU) through your Safer Neighbourhood Team, (SNT) **Stop that Thief** can add another layer of security to your home, farm, or other business where vulnerabilities are identified during a series of specific site assessments.

These start with a visit from your local SNT and if appropriate move to a Stop that Thief specialist survey where it is agreed by all parties that bespoke technology can help protect your property.

Where suitable, equipment is installed by a trained technician identified by the NFU, for a trial period of up to three weeks. This compliments the advice provided during your SNT visit on crime reduction measures including security marking and property listing.

We also offer details about the information sharing schemes operating in your area intended to improve communication between all parties to help protect you, your immediate neighbours and your community.

All visits and advice is offered free and without obligation.
Costs for the fitting of any equipment, if agreed, will be made clear during the specialist survey.

Please contact : 01905 725780 and leave your contact details, name and number
